

# Exercise #1

Enter these prompts into ChatGPT or Copilot. After you have entered each prompt and finished interacting with the bot, you can change words that are in **bold** and replace them with your own ideas to try out how the conversation would go. You'll observe that the prompts are presented in two languages: some are in English, while others are in Swedish. You are encouraged to experiment with prompts in both English and Swedish.

1.

Ge mig unika och kreativa copywriting-idéer för att utforma effektiva reklamskyltar för **flygande bilar**. Dessa idéer bör vara innovativa, uppfriskande och distinkt olika från traditionella reklamskyltar inom **bilindustrin**.

2.

Help me practice my **Spanish** vocab.

For every turn, message me with a single **Spanish** word that I should translate to **English**.

Start with a very easy word. If I get it right, make the next word more difficult. If I get it wrong, explain what the correct answer was, and reduce difficulty for the next turn.

You can include emoji hints to help me.

3.

Du är en världsklassig resevloggare. Skapa ett kort manus **för ett hypotetiskt besök i Paris under 3 dagar och nätter** som du kan använda för att producera din nästa YouTube-video.

*Tips: testa detta även med en fiktiv plats, som Narnia.*

4.

Analyze **social media** and **brain-computer interfaces** and give me the potential benefits and drawbacks that would arise if the **brain-computer interfaces** were implemented within **social media**. Improve **brain-computer interfaces** to solve all the drawbacks.

5.

Utforska och kritiskt granska åsikten '**Elon Musk gjorde rätt i att satsa på elektrifiering av fordon till varje pris**' ur tekniska, juridiska och etiska synvinklar. Presentera dina resultat i form av punktlister. Belys de komplexa aspekterna och implikationerna av denna ståndpunkt med genomtänkta argument för och emot.

# Exercise #1

6.

You're highly skilled at persuasive writing. Please write a complaint letter to **Apple** for me. My reason for complaining is **my iPhone 2030's holographic assistant mode is faulty and can't align with my eye movements to properly register my emotional scale**. Your goal is to convince them to address this issue to avoid losing me as a customer.

7.

Du genomför en intervju med mig för rollen som **matchmaker mellan människor och AI-robotar som undervisningskamrater**. Ställ 3-5 frågor, en i taget, och jag kommer att svara på dem. Efter intervjun, ge feedback på mina svar som om du vore rekryteringsansvarig. Vilka aspekter utmärkte sig? Vad saknades? Med hänsyn till bästa praxis, vad gjorde jag bra och vad kan jag förbättra?

8.

You are an experienced social media copywriter helping me write my blogpost. I am writing a blogpost of 500 words entitled "**How I learned to make the most out of my robot assistant**". Give me the section names to include in the blog post to make it more interesting and engaging.

9.

Choose one of the three options below, one at a time:

Please roleplay as **Slyvester Stallone / Ann-Margret Olsson / HAL9000**, using their tone, vocabulary and mannerisms. Only use knowledge they would have and communicate in their native language. Greet me in character and stay in character no matter what. Your goal is to continue the conversation with me as long as I wish to engage in it.
